Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted applicant to indicate that independent claims 1, 18, 25, and 26 are in condition for allowance based on the amendment filed 3/8/2011. However, examiner found that independent claim 23 was not in condition for allowance and could be rejected by DE 4002817 A1 or a combination of US Patent No. 5,915,599 to Takahashi with an overcap. Consequently, examiner suggested cancelling claims 23 and 24 to put the case in condition for allowance. Applicant agreed to allow examiner to cancel the claims via examiner's amendment and the case is now in condition for allowance.
